

To Whom it May Concern;I am a loyal customer of XM Satellite Radio. The key word being customer. As a customer I expect the highest of service to keep my business. I believe XM has done that and more. They offer great programming at a great price. XM's customers demand a variety of programs to keep us interested and with XM's Instant Traffic and Weather XM has fulfilled a need of its customers. I implore the FCC to reject NAB's petition 04-160. There is no reason to stifle good business.

Thank you for your consideration.

Respectfully,

Jeff Clark

XM subscriber
